

**Bleed Area**

You will need to extend your design to fill the bleed area. This area will be trimmed to make sure you don't have any unwanted white lines.

**Cut Line**

This is where we aim to cut your design to the finished size. Any part of your design placed outside this area will be cut off.

**Safe Zone**

The safe zone is 3mm inside of the cut line. Make sure all important elements and text are kept within this blue area.

**Fold Line**

This line is where your leaflet will be folded. Avoid placing text over this line for best print.
